

Workers Compensation Insurance Reminder

Dear Majestic Owner,

Please keep in mind that unit owners are responsible for any person or company that they invite onto Association property, to include anyone hired to work inside a condominium unit.

Part of your responsibility includes making sure that any individual or company you hire has the proper workers compensation insurance or a valid exemption certificate issued by the State of Florida. This includes painters, tile setters, plumbers, carpenters, housekeepers, carpet cleaners and installers, handymen, delivery personnel, and even house wares companies and decorators.

By ensuring that all workers invited onto the resort are properly insured, it will ultimately benefit you personally and the Association as a whole, should there even be a claim of injury.

Sincerely,

Mike Wray
Association Manager
