ALERT BAY EMERGENCY

NOTIFICATIONS:

As warmer temperatures approaches, severe storms can pop up out of no where. Many times without warning. It is highly recommended owners and rental management companies to sign up for Alert Bay. Alert Bay is an emergency notification system that provides critical information quickly in situations like severe weather, unexpected road closures, emergency evacuations, and more. You will receive time-sensitive notifications wherever you specify, such as your home and/or office via mobile or landline, email, text messages and more. You pick where, you pick how.

QR CODES:

We previously sent out a notice regarding the QR Codes, which are posted around property. The QR codes have various information, such as the General Rules & Regulations, Beach Flag

Warning System, Menus for H2O Bar & Grill and Majestic Market, WiFi Instructions, and more. The benefit of these codes is that once a guest scans the code it is saved in their phone for convenience during their stay. Judging by the number of scans we have received already, they are being used frequently. These allow us to provide more information to our guests. Since it was originally sent out I have had multiple owners ask that I resend the downloadable version so they can display the codes in their units. By clicking the button below you can download and print a copy for your unit.

HEAVY DUTY OWNER CART:

As we previously report, we are in the process of getting new luggage carts. We have already received 11, and are scheduled to receive an additional 22.

While the new luggage carts are more durable than the older

cars, they are still only designed for luggage and items guests may bring on vacation. They are not made to carry heavier items such as appliances, flooring, or furniture. In order to protect the investment the Association has made for these carts, we ask that you please do not use the luggage carts for anything other than luggage, clothing, or similar items.

However, the Association did purchase a flat bed cart, seen in the picture, which will hold up to 800 lbs. This heavy duty cart is for owner use. To sign it out please stop Owner Services. Additionally, this cart will not be available for vendor use, unless accompanied by an owner.
