

News & Updates

CHANGES TO THE MAJESTIC TEAM:

We are excited to announce a few changes to our team at Majestic Beach Resort. Trista Weaver, who has served

as the Security Supervisor with American Security Associates, is no longer with our team at Majestic Beach Resort. We would like to thank her for her service to Majestic and wish her the best in her future adventures. Assuming the role as Security Site Supervisor will be Justin Brewer. Justin has been with our team for several months and comes to us with a background in corrections and security. Additionally, Kat Agulto, who has served the past three years as our Common Area Cleaning Supervisor, will be transitioning to a new role as Security Training Director. Kat, who previously served Majestic as Security Site Supervisor, will focus on security procedures from guests service standpoint, emphasizing consistency throughout the department. Lastly, Manuel Perez, who previously served our property as Common Area Cleaning Supervisor will be rejoining our team to lead the Common Area Cleaning Team once again. We are excited for these welcomed changes to the Majestic Beach Resort Team. Please congratulate them when you see them around property.

Additionally, we ask for your assistance as we head into what is expected to be a busy rental season. Please be sure you and your guests wear the property ID armbands while out on property, including the Fitness Center, pools, lobbies, and other common areas. Even if you are a long time owner, we have many new security guards as we head into peak season who do not necessarily know all our owners, even the more familiar faces.

Lastly, we ask that parking in front of the towers strictly be limited to drop off and pick up only. This applies to vendors, guests, and owners. No unattended vehicles are to be left in the drop off & pick

up parking, as we are limited to spaces in these areas. We greatly appreciate your cooperation.

MAJESTIC INFORMATIONAL QR CODES:

In order to better provide information to our guests and owners you will begin seeing QR codes displayed in the elevators around property. The idea is to not only provide helpful information to our guests, but also once they scan the information they will have it on their phone for reference throughout their stay. Items such as Beach Flag Warnings, General Rules & Regulations, H2O Bar & Grill Menu. Hopefully, this will provide for a more enjoyable experience for our guests.
